

Python program to generate 4digit OTP

```
In [43]: import random

def generate_otp(length):
    digits='0123456789'
    otp=''.join(random.choice(digits) for _ in range(length))
    return otp
otp_length = 4
otp=generate_otp(otp_length)
print('generated 4 digit OTP is',otp)
```

generated 4 digit OTP is 6779
